

QUALITY AND CONVENIENT
CARE FOR YOUR PATIENTS

BIOPSY SERVICES

WE BRING BRILLIANCE TO HEALTH & WELLNESS

RAYUS Radiology™ offers biopsy and aspiration services to evaluate tissues for abnormal cells, disease, cancer or infection. Biopsies are performed by our team of subspecialized radiologists using ultrasound or CT guidance.

BENEFITS OF CHOOSING RAYUS RADIOLOGY FOR YOUR PATIENT'S BIOPSY

QUALITY

Subspecialized radiologists with advanced training perform all biopsy procedures, ensuring accurate collection and diagnosis for you and your patients.

CONVENIENCE

In most cases, hospitals require two separate appointments for a biopsy, one for consultation and one for the procedure. At RAYUS Radiology, we perform biopsies the same day as the consultation, saving your patient time and expense. In addition, your patient can park right outside our facility and walk in.

ACCESS AND SUPPORT

Our staff manages the biopsy procedure from the beginning to end, managing lab results and communicating results with your office. Spanish speaking staff available. El personal habla español.
