

WE HAVE THE RIGHT MRI FOR EVERY PATIENT

WE BRING BRILLIANCE TO HEALTH & WELLNESS

HIGH-QUALITY IMAGING WITH A FOCUS ON THE PATIENT EXPERIENCE

OUR IMAGE-QUALITY

The subspecialized radiologists have developed custom protocols for each scanner, ensuring the best image quality is obtained.

Our equipment is ACR certified and our technologists are ARRT registered.

BEST OPTIONS FOR PATIENTS

- Our dedicated staff is specifically trained to work with your patient and schedule the exam they need on the right scanner for them
- With our open MRI options, we can scan claustrophobic and bariatric patients
- To reduce anxiety, patients are given extra time to ensure comfort and are welcome to view the MRI equipment prior to the exam
