WE BRING BRILLIANCE TO HEALTH & WELLNESS

Froedtert Hospital

We deliver high-quality medical imaging tailored to meet your unique needs in a comfortable, outpatient setting.

WE OFFER

A full suite of MRI options to meet your specific imaging needs: 3T MRI, high-field open MRI, wide/open-bore MRI, short-bore MRI

An image quality guarantee – if for any reason your provider is not satisfied with the image quality, we will rescan the same body part free of charge

Compassionate, patient-centered care from certified MRI technologists who will guide you through every step of the exam

A subspecialized radiologist who will provide a detailed report of your results to your provider

Evening and weekend hours available, including same-day and next-day appointments

Convenient, free parking

Comfort measures, including the ability to listen to music and light sedation if necessary

QUALITY

We are dedicated to quality. Our centers are American College of Radiology (ACR) accredited, which means our equipment, staff and facilities have been rigorously evaluated by physicists and board-certified physicians.

EXPERIENCE

Our team of local, sub-specialized Medical College of Wisconsin radiologists are experts in their area of care. You can feel confident that your high-quality images will reveal the answers your provider needs to determine the next step in your care.

An open MRI has less enclosure around your body, with 270 degrees of unobstructed views — ideal for those who are claustrophobic or who can't fit comfortably in a traditional MRI.

Accommodates patients up to 660 lbs.

Up to twice as fast as other open scanners

Wide, comfortable patient table (82 cm)

* Open MRI is only available at Wauwatosa.
