## PATIENT PREPARATION

Arrive 15 minutes before your scheduled appointment time. Notify us if you have questions or cannot keep your appointment. We will bill your insurance carrier directly. You are responsible for payment of your deductible and co-pay amounts before services are provided.

**MRI**

- Contact us if you have a pacemaker as they are unsafe for MRI.
- For MRCP exams - nothing to eat or drink 4 hours before the exam.
- For MRI contrast - a current (within 90 days) creatinine level\* will be required for patients over the age of 60 or those with diabetes or hypertension.
- For MRI contrast - nothing to eat or drink 4 hours before exam.

**CT**

- For CT contrast - a current (within 90 days) creatinine level\* check will be required for patients over the age of 60 or those with diabetes, hypertension or renal insufficiency.

**MAMMOGRAM**

- Do not wear deodorant, body powder or lotion.
- If prior mammograms are available, please obtain them prior to appointment.

*\*On-site labs available for creatinine levels.*

**ULTRASOUND**

- Abdomen, gallbladder and renal doppler - nothing to eat or drink 8 hours before the exam.
- OB < 15 weeks - drink 24-32 oz. of water at least 1½ hours before exam. Transvaginal, if needed.
- OB > 16 weeks - no prep.
- Renal - drink 16 oz. of water one hour prior to exam.
- Pelvic - drink 24-32 oz. of water at least 1½ hours before exam. Come with a full bladder.

**X-RAY**

- Hysterosalpingogram - for intrauterine birth control devices, include placement date. Exams must be scheduled 3 months post placement.
