

WE ARE RAYUS RADIOLOGY RESEARCH

WE BRING BRILLIANCE TO HEALTH & WELLNESS

For over four decades, **RAYUS Radiology**, formerly Center for Diagnostic Imaging (CDI), has continually delivered the highest standards for health and wellness with state-of-the-art technology and a dedicated team of leading subspecialists. **RAYUS** is revolutionizing radiology while building a nationwide presence to ensure the broadest access to quality care.

RAYUS Radiology is one of the nation's leading subspecialty practices for advanced diagnostic and interventional radiology, with a growing network of imaging centers, hospital partnerships and short- and long-term hospital solutions. With over 3,000 team members nationally and over 800 affiliated radiology subspecialists, **RAYUS** is committed to delivering clinical excellence in communities across the United States through compassionate, safe and cost-efficient care with a focus on superior service to referring providers and patients.

RESEARCH TEAM

135+ IMAGING CENTERS TO SUPPORT RESEARCH PROJECTS

Our clinical research offers clinical trial diagnostic and interventional imaging services to sponsors, academic institutions, community physicians and private research companies efficiently and with the highest level of quality.

OFFERING A DEDICATED IMAGING RESEARCH TEAM FOR EVERY POINT OF THE PROCESS

- Scheduling team to ensure study patients are within windows
- Internal QA/QC to ensure scans are completed the right way the first time
- Data processing and upload within 24 hours of scan
- Query resolution
- Compliant with GCP, HIPAA, IATA and FDA regulations
- Board-certified and fellowship-trained radiologists
- Experienced technologists and nurses

CUTTING EDGE IMAGING EQUIPMENT & FACILITIES

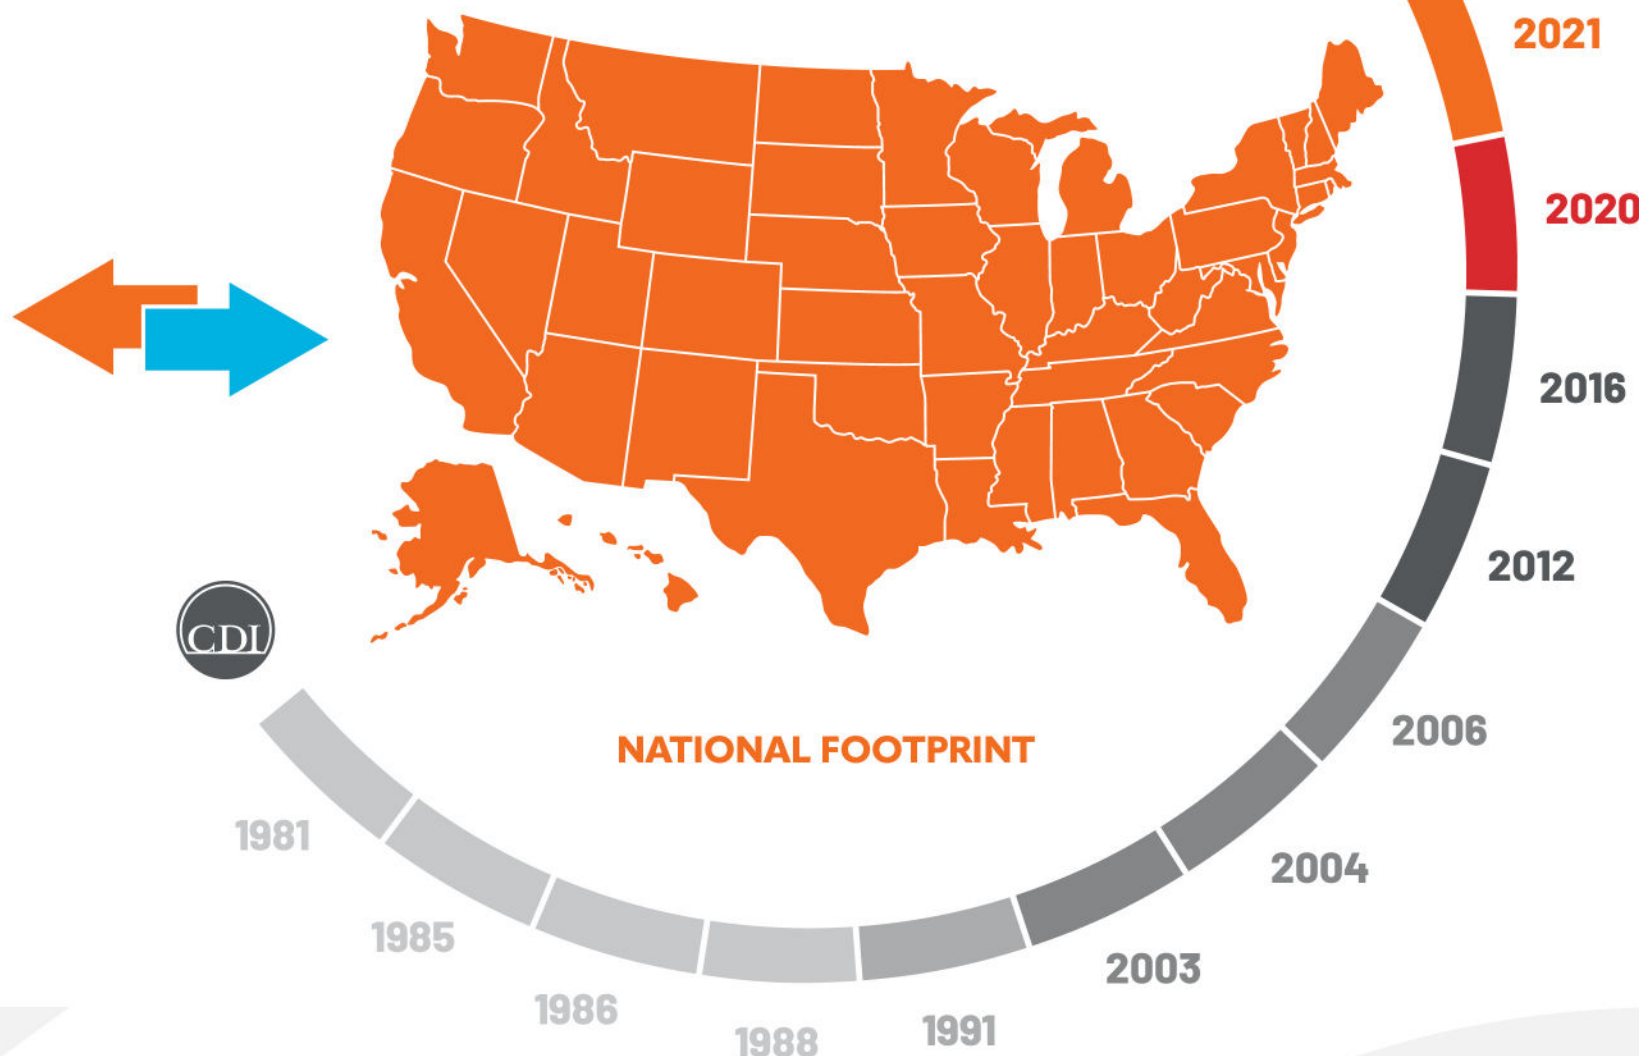

- Liver Imaging: MR elastography (MRE), Liver Multiscan, MRI PDFF, Fibroscan
- Brain Imaging: MRA, ASL, DTI, fMRI, NM MRI, Perfusion studies
- NeuroQuant Volumetric MRIMS
- Prostate Imaging
- MRI 1.5T and 3T
- PET/CT
- Nuclear Medicine
- DEXA
- Mammography
- Ultrasound
- Interventional Radiology
- X-ray

SHINE ON

2024

With a passion for innovation and a drive to inspire, **RAYUS** looks forward to expanding its geographical footprint and advancing the standard of medical care for all patients and providers through its cutting-edge clinical research efforts and by continuing to shine a light on the importance of high-quality and easily accessible diagnostic imaging options for all communities across the country.

RAYUS RADIOLOGY IS AN OFFICIAL MEDICAL PROVIDER

1981 In December of 1981, Dr. Kenneth B. Heithoff founded the Center for Diagnostic Imaging (CDI).

1982* CDI begins contributing to clinical research studies.

1985 CDI purchases an MRI scanner, one of the first outpatient MRIs in the country.

1986 Diagnostic and Therapeutic Injection modalities were added to the services provided by CDI.

1988 CDI forms its first local partnership with St. Luke's Hospital in Duluth, Minnesota, to provide high-quality medical imaging to the community.

1991 Transmitting images via **teleradiology** groundbreaking technology was incorporated by CDI. CDI expands to Indianapolis.

2003 The CDI Quality Institute, now known as RAYUS Quality Institute, was established to lead the imaging industry in defining high-quality measures.

2004 CDI begins offering innovative **3T MRIs** to patients.

2006 At CDI in Milwaukee, the MindState™ fDAD™ system was installed. Working with Neurognostics allowed CDI to provide physicians with the latest imaging technology advancements

2012 CDI and **Insight Imaging** joined forces to form one of the nation's most extensive medical imaging and related services organizations.

2016 CDI expands to Oregon by acquiring EPIC Imaging.

2020 CDI expanded to Utah by acquiring **U.S. MRI and Open Imaging**, advancing the company as the official medical provider for **U.S. Ski and Snowboard, U.S. Speedskating, and U.S. Bobsled and Skeleton.**

2021 CDI Rebrands to **RAYUS Radiology**
RAYUS added **21 centers and over 100 Radiologists** with the acquisition of **InHealth Imaging, Sand Lake Imaging, Diagnostic Centers of America and Foundation Radiology Group**, providing physicians and patients a full spectrum of imaging service options.

2023 RAYUS Radiology obtains, manages, and distributes **over 75 million images annually** across modalities - putting the company at the forefront of the nation's shift to personalized, targeted medicine.
