

FULL CONTINUUM OF CARE BREAST IMAGING

WE BRING BRILLIANCE TO HEALTH & WELLNESS

SERVICES THAT PROVIDE PEACE OF MIND TO YOUR PATIENTS

When it comes to breast care, your patients are looking for fast, accurate answers. We offer a full continuum of screening and diagnostic services, from annual 3D screening mammograms to a full range of biopsy services and breast cancer risk assessment.

ON-SITE, SUBSPECIALIZED BREAST RADIOLOGISTS

Exams are read by board-certified radiologists who are on-site, and subspecialized in breast imaging, breast cancer and early detection.

ADVANCED IMAGING SERVICES

- 3D (Tomosynthesis) mammography: Screening and diagnostic
- Biopsy: Stereotactic, US-guided or MRI-guided
- Diagnostic breast ultrasound
- Screening whole breast ultrasound for dense breast tissue
- Breast MRI (performed at our Federal Way, Bellevue and Poulsbo locations)
- Bone density scans: DXA and QCT
- Breast cancer risk assessment
