

BRILLIANT IMAGING

BEGINS WITH THE RIGHT
MRI FOR EVERY PATIENT

WE BRING BRILLIANCE TO HEALTH & WELLNESS

WE'RE SHINING A LIGHT ON HIGH-QUALITY IMAGING WITH A FOCUS ON THE PATIENT EXPERIENCE

OUR IMAGE-QUALITY GUARANTEE

At RAYUS Radiology, our subspecialized radiologist partners have interpreted open MRI scans for over a decade. We've developed custom protocols for each scanner to ensure the highest image quality. If more detailed images are needed for a particular case, we'll rescan the patient on another MRI—at no additional charge.

BEST OPTIONS FOR PATIENTS

- Our dedicated staff is specially trained to work with your patients and schedule the right exam on the scanner best suited for their needs
- With our open MRI options, we can accommodate claustrophobic patients, bariatric patients and those who are unable to lie down due to pain
- To reduce anxiety, we allow extra time to ensure patient comfort, and patients are welcome to view the MRI equipment before their exam
